Cement Panelling Wallpaper

Cement wallpaper also known as concrete, can be a game changer. Bringing texture and interest to any wall. There's no such thing as too much cement, it's just a blank slate for you to accessorise and make softer. It can be a little cold but when combined with other materials (such as wood) it can have a beautiful look, creating an industrial chic vibe, with warmth and texture. A concrete look wallpaper will add just the right amount of character to an interior, that maybe why many cafes feature a cement finish either on the floor, counters or walls. Staying on trend has never been easier.
