

BETHANY LINZ

Grande Water Birds Wallpaper

A larger iteration of an existing design, Grande Water Birds wallpaper is inspired by traditional Chinese and Japanese screen designs and the native birdlife of Sydney, Australia. Elegant cranes wade through the reeds and shallows, hunting for fish and insects. Inspired by her daily walks around Sydney, designer Bethany Linz has perfectly captured the beauty of these stunning creatures with a design that adds a subtle elegance to any interior, with use of subtle neutrals, bold, dark hues and a touch of gold for a hint of glamour.

Note: Samples are provided for review of the material, pattern scale and print technique—they are not intended to be used for colour matching purposes. There can be slight shifts in colour between runs, so your wallpaper may vary slightly from sample colouring.

Please ensure that you order the correct amount as we do not guarantee that rolls printed in different batches will be an exact match.

SUSTAINABILITY

- **Natural and Renewable Materials:** Our grasscloth wallpapers are made from natural seagrass fibres. These fibres are renewable resources, as they come from plants that can be replanted and harvested sustainably.
- **Grasscloth wallpapers are biodegradable,** meaning they can naturally break down over time without causing harm to the environment. They can also be composted, reducing waste and landfill burden.
- **Low VOC and Non-Toxic:** Many grasscloth wallpapers are manufactured using water-based adhesives and inks with low volatile organic compound (VOC) content. This reduces indoor air pollution and improves indoor air quality, making it healthier for occupants.
- **No PVC or Vinyl:** Grasscloth wallpapers are generally free from PVC (polyvinyl chloride) and vinyl, which are materials commonly found in traditional wallpapers. Avoiding PVC and vinyl reduces the use of harmful chemicals and synthetic materials.

BATCHING & DELIVERY

- **Note:** Samples of this wallpaper are provided for review of the material, pattern scale and print technique – they are not intended to be used for color matching purposes. There can be slight shifts in color between runs, so your wallpaper may vary slightly from sample coloring.
