# Whitewashed Timber Wallpaper

This highly realistic shiplap panelling wallpaper is extremely versatile and can be used in a number of different ways, depending on the needs of the space. Its versatility is its strength, adding warmth and rustic character to what might be a more austere modern setting or, conversely, because it has a very clean line, can be used to make a historical setting feel more contemporary. The texture of the wood wallpaper is subtle and warm. It's whitewashed so that some of the grain shows through. In terms of installation, again its versatility is key. Installing your wallpaper as horizontal boards is best to create a space that feels expansive and modern. However, when laid vertically, timber panelling can create the illusion of height.
